

U.S. TROOPS NOW ON WAY TO MONTANA

State Militia and
National Guard
Leaves Seattle, Wash.,
for Helena

MILITIA ALREADY AT BUTTE

No Resistance Offered by
Miners; Mines to Resume
Operations Today

SPOKANE, Wash., Sept. 1.—The
first battalion of the Fourteenth in-
fantry, 250 strong, under command of
Capt. W. J. Jordan, left this after-
noon on special trains for Helena,
Mont., under orders of the war depart-
ment. The federal troops are sched-
uled to arrive at Helena about daylight
tomorrow, and will proceed to Fort
William Henry Harrison, there to
await further developments in Butte
in connection with the resumption of
operations among the miners. The
battalion of federal soldiers comprises
Companies I, K, L and M.

HELENA, Mont., Sept. 1.—The city
of Butte and Silver Bow county were
placed under martial law in a procla-
mation issued here tonight by Gov-
ernor Stewart. In his proclamation
the governor stated that conditions of law-
lessness at Butte and the inability of
civil authorities there to cope with the
situation were so apparent as to neces-
sitate this course.

Militia Already on Scene

BUTTE, Mont., Sept. 1.—A com-
missioner of the state National guard, ac-
cording to the report given by Gov-
ernor Stewart to Maj. D. J. Donahue,
commanding, just before the troops
left Helena today, arrived here early
tonight and into camp on a hill-
side overlooking the city. Although
watched by large crowds of miners,
the troops were not fired upon. The
troops were ordered to the city to
take up positions on a hillside where
two machine guns had been mounted.

Butte shortly will be declared under
martial law. A proclamation to this
effect now is being printed. All po-
lice men have been instructed by Maj-
or L. J. Duncan immediately to re-
port at police headquarters as soon as
the troops enter the heart of the city
to turn over the entire city to the
militia.

Mines Resume Work Today

The Anaconda company announced
tonight that the Anaconda and Original
mines would resume work to-
morrow with protection given all miners
who wish to work.

The Butte Mine Workers' committee,
repeating the tactics of this morning,
marched to the Original mine late to-
day to demand an inspection of all
the mines and to compel all Western
Federal Union of Miners members to
join the mine workers' union. The com-
mittee hurriedly repaired to the Mine
Workers' headquarters. It is expected
that, with the city under martial law,
Sheriff Driscoll and his deputies will
attempt to serve warrants issued by
District Judge McNeal Donlan last
Sunday for the arrest of MacDonald,
James A. Chapman, Joseph Bradley.

BELGIANS TELL WORLD OF ALLEGED GERMAN OUTRAGES

Population Decimated, Country Overrun, Citizens Shot Down and Women Treated Without Consideration

LONDON, Sept. 1.—At the reception by King George at
Buckingham palace today of the Belgian mission, which is on
its way to the United States to protest against alleged German
atrocities in the war zone, an address to the king was read set-
ting forth some of the happenings in the present campaign, and
thanking the king for Great Britain's aid.

In part, the address was as follows:

"Sire, Belgium, having had to choose
between the sacrifice of her honor and
the peril of war, did not hesitate. She
opposed the brutal aggression permit-
ted by a power which was one of the
guarantors of her neutrality. In this
critical situation, it is for our country
in inestimable tower of strength to
see coming resolute and immediate in-
tervention by great and powerful friends."

"Commissioned by his majesty, king
of the Belgians, with a message to the
President of the United States, we con-
sidered it to be our duty to make a
day in the capital of the British em-
pire to deliver to your majesty a re-
solute and ardent expression of the
attitude of the Belgian nation."

Population Decimated.
The address referred to the
destruction of the city of Ypres and
the massacre of the king Albert and

Map Showing 'Second Theater of War,' Where Austro-German-Russian Forces Are Engaged

70,000 RUSSIANS CAPTURED BY THE GERMANS IN PRUSSIA

Berlin Reports Great Victory Near Allen- stein; Turkey May Mobilize and Italy Would Enter the War Arena

WASHINGTON, Sept. 1. Official dispatches received
through diplomatic channels today reported two of the most
important developments of the present war.

The German government gave out a message from Berlin, re-
ported by wireless, claiming that the German forces had cap-
tured, near Allenstein, 70,000 Russian prisoners, including 10
generals, 300 officers and the entire equipment of
a Russian army.

Great Britain asked the United States to be prepared to
care for British prisoners in Turkey, indicating that
the allies had lost hope of persuading the Ottoman empire to
remain neutral.

Dispatches received at the British
embassy referred to the incorporation
in the Turkish army of several German
officers, which was regarded as the
forerunner of intervention by the Porte
in behalf of Germany.

Means Italy Will Enter

Turkey's entry into the conflict
means the immediate alignment of
Italy, as well as Greece, on the side of
Great Britain, France, Russia, Serbia,
Montenegro and Roumania, diplomats
here believe. Just what the attitude of
Bulgaria will be is a matter of uncer-
tainty, though the Turkish ambassador
here gave out a statement today speak-
ing of the community of interests of
Bulgaria and Turkey.

The Turkish situation was watched
with deepest concern by diplomats be-
cause of the imminence of a general
war in the Balkans and extension of
the war drama to all of eastern Europe.

The official statement of the big
German victory against the Russians
at Allenstein attracted wide attention. Military
observers pointed out that if the number
of Russians taken prisoners had been
correctly estimated at 70,000, there

must have been great casualties, no
mention of which is made.

Text of German Dispatch

The text of the German dispatch
follows:

"Official report of the victory at
Alenstein shows that it was even
greater than known before. Three
Russian army corps were annihilated.
Seventy thousand prisoners were taken,
including two commanding generals,
300 officers and the complete artillery
of the Russian army."

"In the west, General Von Kluck, it
is reported, has appeared against the
French flanking attempt and has ad-
vanced to Comblain."

(Here part of the message could not
be clearly deciphered.)

"General Von Buelow completely de-
feated a superior French force near St.
Quentin, after having captured the
English infantry. A battalion under
General Von Hausen forced back the
French on the river at Reims."

"The Duke of Wurttemberg crossed
the Meuse river, also advancing on
Alenstein. The crown prince advanced
beyond the Meuse, after capturing the
entire garrison of Montmedy, which
tried to sortie. The fortress also was
captured. The crown prince of Ba-
varia and General Von Heeringen have
been in continuous battle in French
Lorraine."

Conflicting Claims

The statement conflicts to some ex-
tent with one issued by the French
embassy earlier in the day, which
speaks of the progress of the Russian
offensive army. The official claim of
the Germans, however, that 70,000 Rus-
sians were captured, exceeds in mag-
nitude any operation thus far recorded.

Official dispatches to the American
government made no mention of the
hostilities today, being confined to re-
lief measures for Americans.

When President Wilson returns to-
morrow, the replies of Germany and
Great Britain accepting the American
proposal for the censoring of coded
messages at the Tuckerton, N. J., and
Bayville, L. I., wireless stations will be
placed before him, and new instructions
are expected to be issued through the
navy department for the supervision
of the stations.

Denies Bellicose Intentions

WASHINGTON, Sept. 1.—Denial of
threatened hostilities between Turkey
and the Balkan states was made today
by the Turkish ambassador, A. Rustem
Bey.

"As regards the rumors concerning
the reformation of a Balkan alliance
against Turkey, I desire to state that
they are absolutely false," said the em-
bassador.

INCREASE IN SUGAR PRICE TENTATIVE, DECLARER REFINER

New York Municipal Markets
Sell Food Cheaper Than
Retail

NEW YORK, Sept. 1.—The increase
in the price of sugar after the Euro-
pean war began was legitimate, ac-
cording to testimony given today at
District Attorney Whitman's "John
Doe" inquiry into the high cost of food.
Edwin F. Atkins, chairman of the
board of directors of the American
Sugar Refining company, said the de-
mand abroad and the competition there
for West Indian and Central and South
American raw sugar made the increase
in price here necessary.

At four food markets which the city
opened today sugar was sold more
cheaply than housewives could buy at
the stores and within two hours the
entire supply at these markets was ex-
hausted.

City Markets Crowded

At the "John Doe" proceedings, John
A. Sims, general manager of a flour
company, said speculation in flour in
this country was impossible. He pre-
dicted that if the price of flour con-
tinued to rise, many small bakeries
would be forced out of business.

Bread at the new municipal markets
today sold at 4 cents a loaf and
bakeries in the neighborhood did little
business. The markets were crowded.
Chief Magistrate McAdoo, who pre-
sides at the "John Doe" hearing, an-
nounced that he had heard from the
customs authorities that within the
past few days more than 12,226,000
pounds of raw sugar have been sold
to English brokers at 45 per 100 pounds.
Raw sugar early in July sold here as
low as \$2.25 for 100 pounds.

Magistrate McAdoo asked one wit-
ness today if he knew that there was
in bond in this port last week \$5,500,
000 worth of raw sugar. The witness,
general sales manager for a large sugar
company, said he knew nothing
about it.

U. S. HAS RIGHT TO BUY GERMAN SHIPS

Secretary McAdoo Insists Pro-
tests Are Unjustified by
Facts in Case

WASHINGTON, Sept. 1.—The right
of the United States to buy merchant
ships of any nationality for neutral
service cannot be disputed by any nation,
declared Secretary McAdoo of the
treasury department today before the
house merchant marine committee,
supporting the administration merchant
marine bill.

Hearings on the bill were concluded
today and it will be taken up tomorrow
for immediate committee action. An
early report to the house is expected.

AUSTRIANS CLAIM GREAT VICTORIES OVER THE RUSSIANS

Temporary Withdrawal From
Galicia for Strategic
Purposes, Report

NEW YORK, Sept. 1.—Dr. K. T.
Dumba, the ambassador from Austria-
Hungary to the United States, who at
present is at Manchester, Mass., re-
ceived today from the war office at
Vienna a report of the movements of
the troops of his country against Rus-
sia. The report was made public by
Dr. Charles Winter, the Austro-
Hungarian consul general here, as fol-
lows:

Mobilization in Austria-Hungary was
accomplished most successfully and
with great enthusiasm among the
troops. All races and all parties in the
kingdom rallied to the colors in high
spirits of patriotism and good will. The
army corps, one of them the famous
Innsbruck of the Tyrol, were sent
through Munich in way of Lake Con-
stance to Alsace to aid the forces op-
erating at Mulhausen, in Alsace-
Lorraine.

"Germany sent two corps from Sax-
ony and Bavaria to the Galician bor-
der, where they are operating with the
forces of Austria-Hungary under the
Archduke Friedrich and claim a suc-
cession of victories."

Russians Repulsed

"The Russians tried to pierce the
province of Bukovina, but were re-
pulsed with heavy losses."

"In Russian Poland the Bavarian
and Saxon corps took the offensive and
won a great victory over five Russian
corps in a three days' battle, which
waged over a battle front of 40 miles."

"The German troops drove the Rus-
sians to Lublin and are now advancing
to reach Warsaw, where a government
immediately will be established, with
headquarters 65 miles inside the Rus-
sian border."

The Austrian and the German

armies are establishing lines of com-
munication as they go along.

"A retreat of the Austrians, from
Lemberg is admitted, but this was a
strategical retreat purposely under-
taken and carried out because the Aus-
trian defense could not stand the at-
tack on Lemberg without loss, as Lem-
berg is an open plain and offers no
protection or position."

Denies Russian Stories

"The defenses behind Lemberg at
Cracow and at Przemyel, which are
the first line of the German and Aus-
trian defenses, are in strongly fortified
towns. The Poles and Slavs of the
Austrian regular troops are going in

(Continued on Page Two.)

Meet Today to Form

Red Cross Society

To form a local society to carry on a
systematic campaign for funds for the
Red Cross society, a meeting will be
held this afternoon at 2:30 o'clock in
the council chambers at the city hall.
The meeting was called by Mayor
Charles L. McKisson.

GREAT BATTLE HAS BEEN RAGING FOR THREE DAYS; ALLIES HOLDING GERMANS

Fifth Week of War Finds Kaiser's Vast Army Trying to Batter Down Obstruction to Paris

GERMAN AVIATOR RAINS BOMBS DOWN ON THE FRENCH CAPITAL

Berlin Claims Great Victory Over Russians at Allenstein, in East Prussia, in Which 70,000 Prisoners Were Captured

LONDON, Sept. 2.—(Wednesday)—The forty-fourth anni-
versary of Sedan and beginning of the fifth week of the war in
western Europe finds the German armies still fighting for a road
to Paris.

The second great battle in the western theater of the war
and a battle which promises to decide the course of that war,
has been progressing for more than three days. That fact is
almost the sum total of the knowledge which Great Britain and
France have tonight on the course of mighty events.

The battle is being fought by the Germans to turn the left
flank of the allied armies. That the Germans have pushed back
the French and British forces on that flank, to a certain extent,
is revealed by each official announcement. They say that
the German attack has been made at an enormous cost of life,
and the French and English are asking whether the German
army is not becoming exhausted by its heavy losses.

The allies claim that they maintain an excellent organiza-
tion and that their troops are in the best of spirits. They also
claim that the defense campaign they are mounting means
that the Germans are throwing themselves against a wall which
has yielded but which has the advantage of position and
strategy on its side.

While Berlin claims a German victory over the Russians in
East Prussia, after the capture of 70,000 men, the Russians
claim an important victory over the Austrians on the Galician
side, with 30,000 prisoners.

Another German aeroplane has been dropping bombs into
Paris, and, according to the French official statement, the
American ambassador has organized a committee and has sent
a protest against this method of warfare to the government at
Washington.

The Belgian special committee, on its way to the United
States to protest against alleged German atrocities, has been re-
ceived by King George, and has presented him with an address
setting forth some of the happenings in Belgium during the
present campaign and has warmly thanked Great Britain for
her intervention.

AEROPLANE HIT BY FRENCH GUNS

PARIS, Sept. 2.—(Wednes-
day)—The report that the
aeroplane which dropped
bombs yesterday afternoon has
been brought down by the fire
of machine guns in the out-
skirts of Paris has not been
confirmed, but it is certain that
it was struck.

SHOWER OF BOMBS HURLED ON PARIS

PARIS, Sept. 1.—A German
monoplane dropped two more
bombs in the streets of Paris
about 6:30 o'clock this evening.
The operations of the Ger-
man aeroplanes over Paris have
been watched with equanimity
by the people. The first day
the operations caused some
nervousness among the women;
the second day, it was already
an old story, and the third day
they provoked for the most
part sarcastic remarks for the
inefficiency of the German
marksmanship.

A German monoplane
dropped a bomb at the Rue
Michodiere and the Rue du
Quatre Septembre, near the
Credit Lyonnais, this after-
noon. A gun mounted on the
bank fired four shells at the
aeroplane and two English in-
fantrymen fired their rifles re-
peatedly. Another bomb was
dropped near St. Lazare sta-
tion. Neither bomb did any
damage.

Hanover, near Avenue de
l'Opera, without doing damage.
Another in Rue du Mail did not
explode. It broke through the
roof of a house, but did no dam-
age. A bomb fell in the court-
yard of a house in Rue Joubert and
blew out the windows, but did
no other harm.

Another bomb has been
found in Rue de Moscou. It
was loaded with bullets. This
was evidently aimed at the St.
Lazare station. The bombs
found in Rue de Hanover and
Rue de Quatre Septembre prob-
ably were intended for the
Bank of France. It is supposed
that a bomb, thrown on Tues-
day, was aimed at Notre Dame
and one thrown on Monday at
the East station. The result
shows that either the Germans
must have been very bad
marksmen or the bomb throw-
ing was intended for its moral
effect.

FRENCH WAR OFFICE REPORT

PARIS, Sept. 1.—The follow-
ing statement was issued by the
war office tonight:

"On our left wing, as a re-
sult of the turning movement
of the German army, and in
order not to accept battle under
unfavorable conditions, our
troops retired to the south and
south-east. In the region of
Rethel, our forces have ar-
rested the enemy momentarily.
In the center and on the right,
our attack on the 24th and 25th
has been successful."

What the Press Agents Say

"THROUGH THE DARK"

At the Empress today the two-reel Reliance, "Through the Dark," is the feature. It is a Griffith production and carries the stamp of this great director for completeness and technique.

"Bill Organizes a Union," a comic and particularly interesting is a feature from the famous "Office Boy" series.

"The Old Love Best," a Kay Bee two-reel feature, will be a delight to the beholder—the photography is superb, the story interesting.

John North, a prominent young attorney, forgets his rural sweetheart and succumbs to the charms of Vera Morris of the Gayety chorus. After his marriage John returns home from a business trip earlier than he is expected and leaves for the theater to surprise his wife, but instead is surprised himself to find that she has gone out with a party to a road house. He follows the machine of joy riders and is badly hurt in an accident. He is carried to his father's home in the country, where his former sweetheart is a neighbor. Being suspicious of his wife, he employs a detective to watch her actions while he is convalescing. Johnson, the detective, finds that she is leading a gay life and reports it to her husband. North and the detective decide upon a plan to get evidence of Vera's actions. They attend a mask ball where Vera is with one of her admirers and find her in the conservatory on his lap. John is granted a divorce and is reconciled to his former sweetheart.

ANNETTE KELLERMAN

Today and tomorrow will mark the opportunity to view the Annette Kellerman pictures at the Opera House. There are only two performances given daily—2:30 and 8:20 p. m.—and the same price of admission will prevail. The Opera House telephone has been kept busy by patrons asking to have seats reserved. To give all an even chance no seats will be reserved, but tickets will be on sale from 10 a. m. to 9 p. m. at the box office. Last week, when the pictures were seen for the first time, many were forced to wait in line to secure tickets.

—D—this end of the scale

JOHN W. DARLAND DIES

John W. Darland, 80 years old, died at Beth-El hospital at 6:30 o'clock Sunday night after an illness of more than two months. Darland, who was a veteran of the Civil war, was a retired business man. He and Mrs. Darland came to Colorado Springs about three years ago from Emmetsburg, Ia., and had been living at 710 North Walnut street. Darland was one of the oldest members of El Paso lodge No. 15, A. F. and A. M. He had been a member of the Masonic order for more than 40 years, and was worshipful master of his lodge in Iowa for seven consecutive years. He is survived by his wife and a son who live in this city, a married daughter who lives in Iowa, and a son who lives in Fort Smith Ark. This daughter and son are expected to arrive in Colorado Springs today, and funeral arrangements will not be completed until they reach this city. The services, however, will be under the auspices of El Paso lodge No. 15, A. F. and A. M.

FORMER SLAVE DIES

Mrs. Amanda L. Robinson, colored, 64 years old a former slave died at the home of her daughter, Mrs. Mozie Bang 1117 Colorado avenue Colorado City, at 9 o'clock Saturday morning after an illness of two weeks with bronchitis. The funeral will be held from the home of Mrs. Bang at 2 o'clock this afternoon, the Rev. V. O. Penley officiating, and the body will be buried in Fairview cemetery.

Mrs. Robinson was born in slavery in Baltimore, Md. in 1850. In 1862 she fled from her owners, went to Leavenworth Kan. and from there went to New Mexico in the party of Governor Arnes, the first territorial governor of New Mexico, as a companion for Mrs. Arnes. She was married to C. R. Robinson in 1864 at Fort Union, N. M., and came with him to Colorado in 1870. They had lived in Colorado Springs and vicinity since 1873, and had planned to celebrate their golden wedding anniversary here next October. Besides her husband, three daughters Mrs. Mozie Bang, Mrs. Cora McClain and Mrs. Frances Critchett, all of Colorado City survive Mrs. Robinson, as does one son, William Robinson, of Denver. She is also survived by 15 grandchildren and two great-grandchildren.

All the members of W. D. Matthews No. 23, W. R. C., will attend the funeral of Mrs. Robinson in a body.

The funeral of Coroner Lawrence Beyle was held at 9 o'clock yesterday morning from St. Mary's church. Requiem high mass was celebrated. Father Raber officiating.

The body of Reuel R. Williams was taken last night to Chickasha, Okla., for burial. Williams was killed at the Denver & Rio Grande railroad station last Wednesday night, when he tried to jump on the platform of one of the coaches of a moving train, missed his grip, and fell beneath the wheels.

The Ladies' Aid society of the German Lutheran church will meet tomorrow afternoon at the home of Mrs. C. Schidde 1912 North Cedar street. Important business will be transacted and all members should be present.

ENGLAND IS AFTER GERMANY'S TRADE

Plans Already Under Way to Capture Commerce of the World

LONDON, Sept. 1.—Germany's vast world trade is one of the prizes of war which England is trying to capture. While Great Britain's army is fighting the Prussian military advance in France and the British fleet is opposing the Kaiser's warships in the North sea and with Germany's commerce swept from the oceans, those remaining behind in England are initiating a movement of greatest importance to capture the German and Austrian trade by invading the world markets to procure for Great Britain a great increase of the world's commerce.

The vastness of Germany's exports demonstrates the opportunity which is at hand and suggests the possibility that the United States too may profit commercially by the great war. It is obvious that German commerce will be paralyzed for many months possibly for years, during which time the far-reaching requirements of the whole world hitherto largely met by Germany and Austria must shift to meet.

Movement Already Under Way

The British movement to capture Germany's trade is being taken up with great vigor and the British government is giving its full official support. The board of trade which in England is a government department is doing everything possible to secure the colonial office is gathering all available information from the dominions as to the character of all previous German imports. The chamber of commerce at the same time is arranging meetings between the manufacturers and erstwhile importers of German products.

Another spur to the British ambition to capture German trade is the fact that as is causing a loss to the English market from central Europe and the deficit must be made up elsewhere. The most likely places are those where German and Austria formerly predominated.

When England shortly after the start of the war began to investigate the situation, figures were produced which astounded the public. It was shown that Germany's total exports were nearly \$2,500,000,000 annually which was rather less than the total of the United States. It was also shown that England was really the greatest manufacturing country in the world. It was also shown conclusively that England had been importing large quantities of goods made in Germany even such products as could be manufactured in the United Kingdom.

Another Severe Jolt

One characteristic jolt was a discovery of which the general public knew nothing that Germany exported more as much cotton as England, which heretofore had been held up as the world over to predominate in that line. The government and the business men are now entertaining the idea that Great Britain's loss of trade in central Europe due to the war can be made up by capturing world trade heretofore held by Germany. This has been discussed the possibility of England taking over the German trade with America amounting to \$200,000,000 annually.

Another thing that is being emphasized in England's opportunity in China is particularly Kiangchow which has been a distinct of being Germany's best colonial commercial center. The German trade, on which it has had almost monopoly, is another field which England certainly will invade. It runs into many millions of dollars and imports millions of dollars worth of German goods.

Revenue Cutter Bear Is Forced to Return Without 22 Castaways

NOME, Alaska, Sept. 1.—The United States revenue cutter Bear which arrived here last night from Wrangell island after an unsuccessful attempt to rescue 22 castaways from the Stefansson ship Karluk, who have been on the island since March 10 last, reports having encountered a terrible weather of the island and that it was obliged to turn back on account of lack of coal.

Capt. Robert A. Bartlett, late master of the Karluk who is on the Bear is greatly worried about Karluk refugees who had supplies to last them only until August 10. Even if they have eaten their dogs they must be near the point of starvation. The Bear is taking on coal and as soon as this is completed she will turn back to the Arctic to rescue the prisoners.

BELGIANS TELL WORLD OF ALLEGED GERMAN OUTRAGES

(Continued from Page One)

ing dates and places and the names of persons said to have been killed.

Soldiers in Brunkan Org.

I have a statement made by M. de Wiart, a reliable man who visited Louvain, August 20, which says the Germans were still burning buildings that day and shooting straw so that every house standing would be destroyed. Drunken German soldiers were feeling through the streets with bottles of wine and other were drinking at tables set in the streets.

Louvain looks like a second Pompeii, only the town hall and the city station are left standing. The cathedral and the theater have collapsed, as also has the library with its rare old manuscripts. The university, which had 2,500 students is a total ruin.

"Aerschot, with 8,000 inhabitants and Diest, and many other fortified villages suffered the same fate as Louvain. At Diest a mother and her daughter of 12 years were shot to death a young man was bound to a tree and burned alive and two men were buried alive with their heads downwards."

Charge Germans With Theft

M. de Wiart charged the Germans with theft in the taking of funds from the national bank of Louvain an institution in no way connected with the government and said the bombardment of Antwerp without giving 24 hours notice was a violation of international law.

"I personally saw," said Emile Vanderveelde, Belgian minister of state, who is a member of the mission, the bodies of a father and son non-combatants, cut all to pieces by German bayonet thrusts. This was near the river Meuse. I have reliable information that the Germans held Belgian women and children before them in the same vicinity.

At Malines the Germans continued to storm the town after the inhabitants had all gone to try to get to the neighborhood and drive everyone possible into Antwerp so that the food supply would be exhausted there and the siege shortened. Belgian soldiers lying wounded, were bayoneted by the Germans at many places. The savagery of the Germans is unbelievable.

The mission will leave England tomorrow on a boat sailing for New York and its members will see President Wilson as soon as possible.

Belgian soldiers lying wounded, were bayoneted by the Germans at many places. The savagery of the Germans is unbelievable.

The mission will leave England tomorrow on a boat sailing for New York and its members will see President Wilson as soon as possible.

Allies Will Win in End

King Albert had us tell all the world that Belgium is not crushed, and never will be crushed. Such a spirit as we have never can be downed. We will fight on and on, and success finally will crown the efforts of the allies.

Such was the message that Carton de Wiart, the minister of justice, head of the Belgian mission delivered to the representatives of the press following the visit of the mission to King George and Sir Edward Grey, the British foreign minister. M. de Wiart reviewed the charges against Germany in detail, having great stress on the fact that Germans had violated the neutrality of Belgium in entering that country, and recited alleged specific outrages on the part of the Germans, governing dates and places and the names of persons said to have been killed.

LAKE STEAMER ON FIRE; PASSENGERS SAFELY REACH SHORE

CHICAGO, Sept. 1.—With several hundred passengers most of them women and children, the City of Chicago, an excursion steamer, caught fire several miles off shore early today. Racing against the flames the steamer made the government breakwater and the passengers were landed a moment before the boat sank. Captain Bjork declared he believed that all had been taken off safely.

The passengers, many of whom had been drawn from the water, were huddled on the breakwater and later were taken ashore on tugs and in other excursion boats. Some of them expressed the belief that some of the occupants of the barge had been drowned. One man who was taken from the water said the passengers had not been awakened until a few minutes before the boat sank. He had been asleep in his berth, he said, and woke up only when the smoke became overpowering.

The City of Chicago belonged to the Graham & Morton transportation company and had been in use since 1890 as an excursion boat. She left Benton Harbor late last night bound for Chicago.

The fire, which is believed to have started in the galley, was discovered when about three miles off the Illinois shore. Captain Bjork directed the ship be rushed for shore and the flaming boat was driven full force in the government pier.

The boat struck so hard that much of the piling was torn down and the plaster was knocked from a dwelling structure.

The passengers, all of whom had been ordered off by the captain, were towed about, many of them being thrown into the water.

Captain Charles Garland of the life saving service took charge of the rescue work. He and Captain Bjork saw the passengers had acted with remarkable coolness. Women and children were given the first opportunity to reach the pier. First stationing himself at the side of the boat Captain Bjork shouted that not a man was to leave the ship until the women and children were safe.

Most of the passengers rushed to the upper decks when they learned of the fire. Nearly all of them were left only in their night garments when the boat sank. No effort was made to save their personal effects.

The wireless of the Chicago failed to work. Her box was sustained by the pier but the stern settled in the comparatively shallow water. Fire tugs and other craft extinguished the flames in her cabins.

NAME OF RUSSIAN CAPITAL CHANGED

LONDON, Sept. 1.—A dispatch to the Home Telegrams company from St. Petersburg says that the imperial order has been issued to change the name of the Russian capital since 1712. The change is from St. Petersburg to Petrograd. The change is announced by the Russian government and the name by which the chief city of Russia has been known since it was founded by Peter the Great in 1703.

MRS. HARRIS VISITS REFUGEE CAMP; SAYS CONDITIONS HORRIBLE

PARIS, Sept. 1.—Mrs. Harman H. Harris, wife of the Paris banker, who, with other American women, has been deeply interested in relief work today visited the North railroad station and was shocked by the sights she saw among the Belgian refugees.

"The station," said Mrs. Harris, "presented the saddest sight I ever saw. It is impossible to believe the torture and cruelty the poor unfortunates had undergone."

I saw many boys with both their hands cut off so that it was impossible for them to carry a gun. Everywhere was filth and utter desolation. The homeless little babies lying on the cold wet cement floor and crying for proper nourishment was enough to bring hot tears to any mother's eyes.

Mothers were vainly beseeching the authorities for milk or soup. A mother with 12 children said:

"What is to become of us? It seems impossible to suffer more. I saw my husband bound to a lamp post. He was gagged and being tortured by bayonets. When I tried to interfere in his behalf, I was knocked senseless with a rifle. I never saw him again."

The work which the Red Cross is doing is excellent but unfortunately it has not sufficient members to cope with the situation. Also the equipment is poor. I saw babies being bathed in dishpans in cold water no hot water being available. Dr. Andre Colin who is in charge of the relief work is almost worshipped by the people owing to his untiring efforts in their behalf.

I am told that the French authorities are doing all that is possible to relieve the misery, but the funds at their command are insufficient. I with the help of policemen, took as much coffee and bread and provisions as an automobile would hold into the station and was greeted as a saint by the other."

WIVES AND WIFE ARRIVE IN SAN ANTONIO

SAN ANTONIO, Tex., Sept. 1.—Victor E. Jones and his wife the former charged with murder and the latter as an accessory in connection with the disappearance of Mrs. Elsie Neilsen and her sister, Miss Beulah Neilsen of Atlanta, Ga., arrived here tonight in custody of a deputy sheriff. Jones and his wife were arrested in Oregon, where they were alleged to have been deserting.

It is said that a hair from the tail of the horse is the strongest single animal thread known.

Alsace and Lorraine Have Been the Buffer States of Europe for Over 1000 Years

History is but repeating itself once more in the big conflict where the French and Germans are battling in Alsace and Lorraine, buffer state and prize of war for more than a thousand years. Almost three without number, since the year 441 A. D. the people of what is now Germany and France have fought for the possession of Alsace and Lorraine. The territory changing from one flag to another with astonishing frequency.

The history of France and Germany, as separate nations begins in 843, 1071 years ago, and the history of the woes and tribulations of Alsace and Lorraine as the bone of contention between the two, and as conquered first by one and then the other, began soon after that same year 843.

The present campaign that France is waging against the Germans in Alsace is therefore only the continuation of a struggle over 1000 years old. The facts of geographical position have created the problem. It is a problem which will remain unsolved and unsolvable as long as the Rhine flows and the Vosges mountains stand.

France says that the Rhine is her true eastern frontier, Germany says that the frontier lies beside the mountains.

Began With Charlemagne

It was in 843 that the three grandsons of Charlemagne, fighting among themselves, decided to end the controversy by dividing their grandfather's possessions among themselves. They acted on the ancient principle that the lands and the people dwelling on them till the soil in peace and fighting the battles in war with the private property of the sovereign, ruling by the divine right of kings. Charlemagne had ruled the whole of Europe as one united government, with the exception alone of the private possessions of the pope of Italy. His capital was at Aachen the Aix-la-Chapelle of modern times, which is now a possession of Prussia.

Charlemagne's son Louis, le Debonnaire, was too weak to hold together such heterogeneous empire of peoples of different race and temperaments and speaking different tongues, their only bond being an official recognition that of their sovereign and a common government. He was too weak even to rule in his own family, and long before his death his three sons were quarreling over their prospective inheritance. The one who was the stronger, called Louis the German, had the first choice in the division and he took northern Europe and the kingdom of the Germans. The second brother, Charles the Bold, took southwestern Europe and became king of the Franks. In the main the descendants of the people of these two kingdoms are the Germans and French of today.

Spoke Different Languages

These two brothers took land which formed a compact whole and which could easily be defended. The people of Louis all spoke one language and the people of Charles, now the French, all spoke another.

The third brother Lothair the weak, had to take what was left of his father's empire. That included what is now Holland, Belgium, Luxembourg, Alsace, Lorraine and a strip of northern Italy.

Wireless Stations are Aids to the Nations Now at War

Each European Government Involved Has Several Wide Range Stations

Prof. Frank Waldo in the Boston Evening Transcript

The stopping of all telegraphic and telephone communication between the belligerents at the first breathings of war and the partial stopping by control and censorship of such communications from nations at war to non-belligerents has rendered invaluable messages by wireless across and around the regions controlled by the belligerents and especially at sea and across the land. But the bottling up of any place so that it cannot hold communication with the outside is a thing of the past. The fact that a wireless apparatus cannot be easily hidden prevents the surreptitious use which might be made of it in regions under control of the belligerents. Although for short distance communication, such as along frontiers or between close lying countries as in western Europe a small wireless receiving apparatus might be secretly used especially if it were temporarily strung under cover of the darkness and taken down before daylight. In such work there will be a new field for signal corps work and scouting.

As regards the more powerful land stations which will keep up communication 500 miles and more these can be easily kept under government supervision but the use of wireless on ships sending messages up to and from 250 to 500 miles and receiving them at still greater distances from powerful land stations, will be subject only to such artificial interference as may be put in operation by the belligerents.

There can be no doubt that the experience of the present war will result in the closer governmental control of private and amateur wireless installation.

Austria-Hungary has four important government wireless stations. Castelnuovo, Pola and Sebenico, with a normal range of 250 miles by day and 100 by night, and Trieste, with a day range of 150 miles and a night range of 300.

Germany has 17 wireless stations, of which eight are lightships with small range of from 20 to 60 miles. The remaining stations are at Barkum, range 100 miles. Bremerhaven, range 200 miles. Bulk (Kiel Bay), range 110 miles. Cuxhaven day range 110 miles, night range 170 miles. Danzig, day range 140 miles, night range 600 miles. Heligoland, range 110 miles. Norddeich, day range 420 miles, night range 850 miles. Sieritz (Rügen), range 110 miles. Swinemünde, day range 330 miles, night range 600.

France has 14 stations. Boulogne, range 160 miles. Brest, range 250 miles. Cherbourg, range 300 miles. Dieppe, range 55 miles. Dunkirk, range 350 miles. Eiffel Tower, range 350 miles. Guéssant, range 350 miles. Port Vendree, range 350 miles. Rochefort, range 350 miles. St. Marie de la Mer, range 350 miles. Toulon, range 350 miles. Several other stations are on the African coast.

Russia has 28 stations, of which the following are on or near the Baltic sea. Heligoland, range 100 miles. Kronstadt, range 100 miles. Libau, range 170 miles. Prester, range 100 miles. Revel, range 170 miles. Riga, range 150 miles. Roms, range 70 miles. Wiburg, range 100 miles.

Great Britain has 6 land stations. Literally thousands of ships are provided with wireless outfits and those on board men-of-war usually have a range of 300 miles or more and are thus equal to a good land station.

Luxemburg Made Independent

Luxemburg was promised to France by Prussia if France would stay out of the war of 1866, but when the war was over the descendants of Louis the German refused to give the state to the descendants of Charles the Bold. Luxembourg, accordingly, was made independent, and the gne of her forts were taken away that she might not fight on either side. The small strip of northern Italy which belonged to the kingdom of Lothair was, after many vicissitudes, incorporated in the union of Italian states under Victor Emmanuel II.

Alsace and Lorraine have alone remained of Lothair's kingdom to be fought over by the two great nations on either side. Together they cover an area of 8,801 square miles.

During the Franco-Russian war of 1870, when Germany was the victor, almost all the great battles were fought in Alsace and Lorraine. At the commencement of the present war France immediately invaded Alsace to wipe out the disgrace of 1870.

Wireless Stations are Aids to the Nations Now at War

Although for short distance communication, such as along frontiers or between close lying countries as in western Europe a small wireless receiving apparatus might be secretly used especially if it were temporarily strung under cover of the darkness and taken down before daylight. In such work there will be a new field for signal corps work and scouting.

As regards the more powerful land stations which will keep up communication 500 miles and more these can be easily kept under government supervision but the use of wireless on ships sending messages up to and from 250 to 500 miles and receiving them at still greater distances from powerful land stations, will be subject only to such artificial interference as may be put in operation by the belligerents.

There can be no doubt that the experience of the present war will result in the closer governmental control of private and amateur wireless installation.

Austria-Hungary has four important government wireless stations. Castelnuovo, Pola and Sebenico, with a normal range of 250 miles by day and 100 by night, and Trieste, with a day range of 150 miles and a night range of 300.

Germany has 17 wireless stations, of which eight are lightships with small range of from 20 to 60 miles. The remaining stations are at Barkum, range 100 miles. Bremerhaven, range 200 miles. Bulk (Kiel Bay), range 110 miles. Cuxhaven day range 110 miles, night range 170 miles. Danzig, day range 140 miles, night range 600 miles. Heligoland, range 110 miles. Norddeich, day range 420 miles, night range 850 miles. Sieritz (Rügen), range 110 miles. Swinemünde, day range 330 miles, night range 600.

France has 14 stations. Boulogne, range 160 miles. Brest, range 250 miles. Cherbourg, range 300 miles. Dieppe, range 55 miles. Dunkirk, range 350 miles. Eiffel Tower, range 350 miles. Guéssant, range 350 miles. Port Vendree, range 350 miles. Rochefort, range 350 miles. St. Marie de la Mer, range 350 miles. Toulon, range 350 miles. Several other stations are on the African coast.

Russia has 28 stations, of which the following are on or near the Baltic sea. Heligoland, range 100 miles. Kronstadt, range 100 miles. Libau, range 170 miles. Prester, range 100 miles. Revel, range 170 miles. Riga, range 150 miles. Roms, range 70 miles. Wiburg, range 100 miles.

Great Britain has 6 land stations. Literally thousands of ships are provided with wireless outfits and those on board men-of-war usually have a range of 300 miles or more and are thus equal to a good land station.

Wireless Stations are Aids to the Nations Now at War

Each European Government Involved Has Several Wide Range Stations

Prof. Frank Waldo in the Boston Evening Transcript

The stopping of all telegraphic and telephone communication between the belligerents at the first breathings of war and the partial stopping by control and censorship of such communications from nations at war to non-belligerents has rendered invaluable messages by wireless across and around the regions controlled by the belligerents and especially at sea and across the land. But the bottling up of any place so that it cannot hold communication with the outside is a thing of the past. The fact that a wireless apparatus cannot be easily hidden prevents the surreptitious use which might be made of it in regions under control of the belligerents. Although for short distance communication, such as along frontiers or between close lying countries as in western Europe a small wireless receiving apparatus might be secretly used especially if it were temporarily strung under cover of the darkness and taken down before daylight. In such work there will be a new field for signal corps work and scouting.

As regards the more powerful land stations which will keep up communication 500 miles and more these can be easily kept under government supervision but the use of wireless on ships sending messages up to and from 250 to 500 miles and receiving them at still greater distances from powerful land stations, will be subject only to such artificial interference as may be put in operation by the belligerents.

AUSTRIANS CLAIM GREAT VICTORIES OVER THE RUSSIANS

SOUTH WANTS THE GOVERNMENT TO TAKE OVER COTTON CROP

PORT WORTH, Tex., Sept. 1.—The state of Texas has a cotton crop of 10,000,000 bales, and the state government is planning to take over the crop, according to a report from the state capital. The plan is to take over the crop and sell it at a profit, with the proceeds to be used for the benefit of the state. The plan is being opposed by the cotton growers, who claim that the state government is not qualified to manage the crop. The state government is planning to take over the crop in the near future, and the cotton growers are planning to resist the plan.

REV. HUTCHINSON RESIGNS

COLORADO CITY CHARGE

The Rev. J. J. Hutchinson, pastor
of the First Christian church of Colo-
rado City, has resigned his pastorate
to accept a call for the Christian church
in Longmont, Colo. The resignation,
which becomes effective September 10,
has been accepted by the board of
trustees of the church. Mr. Hutchin-
son will go to Longmont September
11. No steps toward securing a suc-
cessor have as yet been taken.

GETTING READY FOR FALL

WORK AT THE Y. M. C. A.

The gymnasium and swimming pool
at the Y. M. C. A. are being renovated
in preparation for the beginning of
classes next Monday. The gymnasium
class is open to all members of the
association and will be under the in-
struction of J. W. Erpe, physical in-
structor. The classes will be contin-
ued during the fall and winter and will
be in full swing next Monday.

Don't Let a Cold

Settle on Your Lungs

If you have a persistent cough or
cold, take warning before it is too late.
Eckman's Alternative has relieved
health many persons who had serious
lung trouble. Read of this case:
Pleasantville, N. J.
"Gentlemen:—During the winter of
1911 I contracted a severe cold, which
settled on my lungs. Eckman's Alterna-
tive was recommended to me and I
commenced using it as a last resort.
The first bottle seemed to give no re-
lief, in fact, I seemed to feel worse,
but I kept on using the medicine and
found out the first bottle had really
started me on the road to recovery by
loosening the mucus and making me
expectorate freely. After using the
medicine for some time, my cough
ceased. I gained flesh and today I am
a well man."
(Abbreviated.)
GEO. M. HAINES.
Eckman's Alternative is most effica-
cious in bronchitis, catarrh and severe
throat and lung affections. It is a sub-
limated extract of the most powerful
or habit-forming drugs. Accept no
substitutes. Small size, \$1; regular size,
\$2. Sold by leading druggists. Write
Eckman Laboratories, Philadelphia, Pa.,
for booklet of recoveries. Adv.

1914 ASSESSMENT

IS \$60,400,000

Yelland Valuation Over Nine
Million; 150 Protests Out
of 16,000 Sent in

El Paso county's total assessed val-
uation for 1914 is \$60,400,000, according
to figures just given out by Assessor
H. J. Yelland. The valuation is an in-
crease of \$1,114,380. Last year's assessment
amounted to \$59,285,620.
Yelland's assessment amounted to
\$62,081,370. The tax commission makes
valuations of railroads, telegraphs and
other corporations, the figures being:
Railroads, \$9,817,040; telegraphs, \$901-
270; others, \$5,465,990.
The figures for the larger cor-
porations:
Light, Heat & Power Co., \$5,000,000
Street Railway company, \$2,040,380
Santa Fe railroad, \$1,828,800
Rock Island railroad, \$1,780,000
Short Line railroad, \$1,210,530
Colorado & Southern, \$1,075,710
Denver & Rio Grande, \$1,047,400
C&G road, \$50,000
Out of 16,000 schedules prepared,
only 150 protests were filed. These
will be considered by the board of
county commissioners, sitting as a
board of equalization.

DIRECT INFORMATION IS

FILED AGAINST BRINSON

Colored Man Charged With Murder of
Mrs. Daisy Antrim, Struck by
His Automobile

Charging murder, a direct informa-
tion was filed in the district court by
the district attorney's office yesterday
against Charles N. Brinson, colored, of
Colorado Springs. Brinson is alleged to
have murdered Mrs. Daisy Antrim last
July 16. He has been held at the coun-
ty jail since.
The case is the outgrowth of an au-
tomobile accident in the 100 block on
East Huertano street on the night of
July 16. Brinson, who is a taxicab
driver, was driving west on Huertano
at a high rate of speed early in the
evening in a driving rain. Mrs. Antrim
was crossing the street with an um-
brella raised in front of her, shying
out all view.
Whether the negro saw her and was
unable to stop, or didn't see her, is a
question. His machine struck her, kill-
ing her instantly, and the body was
dragged almost half a block. The
driver hastily stopped his car. It is
charged, placed the body in it, and
drove on to W-4 Garfield street, where
he placed the body on the street car
tracks. Although only one person saw
the accident clearly, the police had
Brinson under arrest within two hours,
and shortly afterward had a partial
confession.

Springs Mills Reduced

\$800,000 in Gold in August

The mines of the Cripple Creek dis-
trict for the month of August have
made production of \$850,000 tons with a
bullion value of \$1,185,577. The increase
over July is marked, amounting to 11-
927 tons and \$179,425 in value. A record
run of 21,200 tons was made by the
Cripple Creek mill of the Portland
company. This plant is treating
average grade dump ore, and while the
tonnage reported is but \$2.00 a
ton, handsome profits resulted. The
tonnage treated at the local mills and
smelters of Denver and Pueblo and
the mills at Colorado Springs is report-
ed as follows:

PERSONAL MENTION

The condition of Dr. Beverly Tucker
is steadily improving.

Leater Derrington, who has been visit-
ing his grandmother, Mrs. E. K.
James, has returned to his home in
Kansas City.

Miss Edith Stout and Miss Lena
Stout of Oklahoma City, who have been
the guests of Mr. and Mrs. H. R. Jen-
kins, have returned to their home.

ST. PAUL M. E. CONFERENCE

HELD LAST EVENING

The regular quarterly conference of
St. Paul M. E. church was held last
night in the church auditorium before
a large attendance of church members
and members of the official board. A
report on the origin of St. Paul's church
was read by the Rev. A. F. Bridges,
pastor emeritus, which was complied
with him with the assistance of Miss
Hubert, deaconess of the first church.
A meeting of the board of trustees
of the church also was held. Routine
business was discussed and plans for
the year were outlined.

64 HIGH SCHOOL GRADUATES WILL ENTER

COLLEGES ALL OVER U. S. THIS FALL

Colorado College Gets 41 Out of List. While
Remainder Are Divided Among Others

With the passing of college entrance
examinations, the class of 1914 from
the high school is beginning to scat-
ter all over the United States to the
universities and colleges of their
choice. Sixty-four graduates from a class
of 114 will enter college this fall, ac-
cording to Principal R. C. Hill, who has
been receiving word daily from success-
ful candidates, and out of that num-
ber 41 will attend Colorado college. The
remaining 23 scholars are divided
among 14 institutions, and the choices
is a scattered one, ranging from Har-
vard, with one representative, in the
east to Stanford, in the west, and
Virginia State university, in the south.
The following institutions that will
have one or more Colorado Springs
students enrolled on the class rosters
are as follows: Harvard 3; Stanford,
1; Virginia State university, 1; State
Teachers college at Greeley, 3; Univer-
sity of Southern California, Los An-
geles, 1; University of Colorado, 2;
Jowa State university, 1; Kansas State
university, 1; Kansas State Agri-
cultural college, 1; Denver university, 1;
Nebraska State university, 1; Rockford
college, Illinois, 1; Chicago Y. M. C. A.
Training school, 1; Sister-Cultural
college, 1. The graduates from the
High school class of 1914 who will en-
ter college this fall are as follows:
Colorado college—R. L. Anderson, L.
J. Arnold, Miss Edna M. Barker, Miss
Sarah E. Baker, W. H. Bragdon, W. A.
Campbell, Ellene G. Carlock, W. F.
Carroll, R. L. Chadbourne, Marie C.
Clough, Dorothy H. Coffin, L. W.
Cooper, Mildred, Elsie, E. C. Flynn,
Marie Freeman, Natalie H. Gray, F. H.
Holm, H. A. Holman, D. G. Homan,
Helen M. Hoop, W. H. Kelley, Mary E.
Kittelman, C. M. Lendrum, Orlando
McCoey, Margaret E. Mcintosh, Eliza-
beth Nicholson, Mary M. O'Neil, H. L.
Peterson, H. M. Pond, Lucy A. Rit-
ter, W. G. Shepard, F. C. Sheldoff,
Merian L. Skinner, Edna H. Watts,
Helen P. White, Milton Whittenberger,
Hava Tucker, Gordon Davis, Donald
Graham, Mania Chase, John Cop-
land, Helen McKibben.
Colorado Agricultural college—A. E.
Klemmedson, G. S. Klemmedson, L. D.
Klemmedson, Lloyd J. Smith, L. L.
Simpson, Inez St. John, Charles Say-
der.
State Teachers college—Irma M. Da-
kens, Mamie Gray.
University of Colorado—Anna H.
Leathman, Hazel Brazil.
Harvard—John C. Ritter.
Rockford (Ill.) college—F. E. Lowe.
Nebraska State—W. M. Lawton.
Chicago Y. M. C. A. Training school
—L. L. Morin.
Kansas State Agricultural college—

Denver university—W. L. Cunningham.
Jowa State—M. G. Kembury.
Stanford university—H. O. Snyder.
Kansas university—Lillian E. Taylor.
University of Southern California—
Justin Miller.

SCHOOLS OPEN AND MORE

THAN 5,000 ARE ENROLLED

Freedom From Disease Among Chil-
dren Is Feature; 25 Students
From Other States Join Here

With a registration of more than 500
students at the high school and ap-
proximately 5,000 children filling the
public schools of the city, the fall term
opened yesterday. With the possibility
of 100 scholars enrolling at the High
school within the next few days, Prin-
cipal R. C. Hill predicts a record year
for the institution. This is the largest
attendance in the history of the school
and this year probably will have an
average attendance of 1,100. More than
25 students from other states are en-
rolled and a large number from places
outside Colorado Springs.
Principal Hill and his assistants are
busy all day yesterday helping to ar-
range schedules and straighten out
tangles and this morning the regular
45-minute periods will be held. Assen-
ments were given out yesterday, and
by tomorrow will be established. The grade
schools are busy and children are still
enrolling, according to Superintendent
C. M. Cole. The registration will be
about the same as it has been in other
years and the total enrollment will run
close to 5,000 before the end of the
month. One of the features of the
opening of the school term has been
the unusual freedom of school children
from sickness. The city also is free
of contagious diseases.

High Class Program for

Musical Tea on Friday

Music lovers will have an opportu-
nity to hear a varied and interesting
program at the musical tea and gar-
den party, to be given for the benefit
of the Visiting Nurse association, at the
home of Mrs. W. Kenyon Jewett, Fri-
day afternoon. Some of the best talent
among Colorado Springs musicians will
be present at the reception and also
several visitors interested in the asso-
ciation.
One of the features of the program
will be several selections by Hans Hess,
a Chicago cellist who has been playing
his summer at the Cliff house. He will
be accompanied by Gordon Russell
Thayer. An attractive number has
been arranged by Mrs. Marie Brinson
of this city and Albert Gardner will
sing, accompanied by Eleanor Anderson.
Miss Edith Graham of Indianapolis
also will sing. Miss Graham's voice
has become well known during her visit
here and her selections will be appre-
ciated.
The musicians who will take part are
giving their services free, and all the
accessories of the garden party and
tea have been arranged for by friends.
The total receipts from the sale of the
tickets will go to the Visiting Nurse
association.

MISS CORNFORTH IS MADE

HEAD OF SWOPE SETTLEMENT

Miss Lois Cornforth of Kansas City,
sister of Senator Arthur Cornforth of
Colorado Springs, has been appointed
head of the Swope settlement by the
board of public welfare in Kansas City.
The Swope settlement was endowed by
the late Colonel Swope of Kansas City,
and is on the same plan as the Hull
House of Chicago and Greenwich
House of New York. Miss Cornforth is
well-known here.

PERSONAL MENTION

The condition of Dr. Beverly Tucker
is steadily improving.

Leater Derrington, who has been visit-
ing his grandmother, Mrs. E. K.
James, has returned to his home in
Kansas City.

Miss Edith Stout and Miss Lena
Stout of Oklahoma City, who have been
the guests of Mr. and Mrs. H. R. Jen-
kins, have returned to their home.

ST. PAUL M. E. CONFERENCE

HELD LAST EVENING

The regular quarterly conference of
St. Paul M. E. church was held last
night in the church auditorium before
a large attendance of church members
and members of the official board. A
report on the origin of St. Paul's church
was read by the Rev. A. F. Bridges,
pastor emeritus, which was complied
with him with the assistance of Miss
Hubert, deaconess of the first church.
A meeting of the board of trustees
of the church also was held. Routine
business was discussed and plans for
the year were outlined.

FILM REVIEW OF SUMMER

AT OPERA HOUSE SATURDAY

Movies of Auto Parade and Various
Gatherings and Events Will
Be Shown Here

A review of the summer activities in
the Pikes Peak region will be given in
moving picture form Saturday at the
Opera house, according to Secretary A.
W. Henderson of the Chamber of
Commerce, who received word yester-
day from the Eastman Kodak company
in Rochester, N. Y., that the films of
the auto parade and other features
were being shipped here. The sociabil-
ity run to Salt Lake City will be given
a prominent place on the reel, and the
Colorado City camping grounds, All-
States day at Manitou, playground
activities and other events will be re-
produced. The moving picture show
will begin at 11 o'clock Saturday
morning.

STATISTICS SHOW GREAT

INTEREST IN LAND SALE

Thousands Told About Opening Up of
State Land in East-
ern Colorado

As a result of the big advertising
campaigns of the state land board and
the Rock Island railroad, boosting the
sale of state lands in El Paso county,
to begin tomorrow at the court house,
more than 2,000 letters of inquiry have
been received and answered by the lo-
cal office, in charge of C. E. Daniels,
immigration agent for the Rock Island.
Twenty-one thousand pieces of litera-
ture have been sent to all parts of the
United States in answer to inquiries,
and 760 people have called in person
at the office for information concern-
ing the auction. The Chicago head of-
fice received 51,000 letters of inquiry
during August.
Prospective settlers from several
states already are in town, and Texas,
Oklahoma, Kansas, Oregon, Iowa, Mis-
sissippi and Arkansas are represented.
The crops throughout the county are in
fine condition, according to Prof. H. M.
Cottrell and W. H. Lauck, who took a
90-mile trip yesterday for the purpose
of investigating the condition of farms
in the county.

Two-step—"Somebody."
Waltz—"Little Boy Blue."
Two-step—"My Arverne Rose."
Waltz—"On the Banks of Lovelight."

A "NICE YOUNG WESTERN

FELLER" WANTED IN EAST

"Wanted a Nice Young Western Fel-
ler," was the heading of a letter re-
ceived at the postoffice here yester-
day from an eastern girl, Rosella
Smith of Ridgefield Park, N. J., who
is on the lookout for a suitable hus-
band. The man of her choice must
have good habits, a steady position,
and must make her a good husband.
In return for these qualifications, the
Smith offers dark hair, brown eyes,
youth, etc. The letter is as follows:
"Wanted
A nice young Western feller of good
habit and a steady position, he must
make a good husband. Please write to
me. I am a young lady of 24 years. I
have dark hair brown eyes 120 lbs. I

Brings Golfers Working to
Get in Shape to Keep
Championship

The Antlers cup tournament, the principal event in golf in Colorado, will be staged on the course of Colorado Springs Golf club next week, September 10, 11 and 12. The club, which now holds the cup, to its victories last year over the Country club and Lakewood teams, is already preparing to defend the trophy and practice under the direction of W. W. Campbell, professional at the club, is now under way. In addition to the above mentioned teams, probably the Inter-club will send a team here for tournament.

The Denver Country club won the Antlers cup in 1911 and 1912 but last year the local team, consisting of W. Jewett, Percy Hagerman, J. P. Webb, T. R. Newbold and O. D. Smith defeated both rivals. The winning the cup keeps the tournament until it is defeated.

Order that the Springs may have strongest possible representation in the Antlers cup play and in team matches with the Denver club, the golf committee of the Antlers will select 10 men for the Antlers team. The first five will constitute regular team and the second five be substitutes.

ICK EVANS ELIMINATED FIRST ROUND AT EKWANOK

ers and Outmet Forced to Limit
to Survive Speedy
Flight

ANCHESTER, Vt., Sept. 1.—The favorite for the national tour golf title was eliminated in the first round of match play on the Ekwano links this afternoon, when Ick Evans, Jr., of Edgewater, N. J., defeated the local champion in 1911, and a promising figure in the recent open championship tournaments, was eliminated. When M. Byers of the Allegheny club of Pittsburgh, national champion in 1906, and runnerup in 1907, 1908, by a score of 1 up, Byers largely because of his ability to his approach shots.

Y. GEN. M'REYNOLDS WILL RETIRE FOR TIME

WASHINGTON, Sept. 1.—Attorney General McReynolds will return to life for a month after he retires from the cabinet. He decided not to take his vacation until the close of the supreme court until the final conference October 12.

DOUGL WINS IN SINGLES OUT LOSER IN DOUBLES

Defeats Dines, 7-5, 6-4, but, With Pastorius, Loses to Morey and Graham, 6-4, 8-3.

Special to The Gazette.
DENVER, Sept. 1.—Meeting stiffer opposition but playing a topnotch game, Clarence P. Dodge, former state tennis champion, defeated Tyson Dines, 7-5, 6-4, this afternoon in the state championship tournament at the Denver Country club. Although the scores were close, at no time was the Colorado Springs man in danger of defeat.

In the doubles Dodge and his partner, Pastorius, were not so fortunate, being defeated by Morey and Graham in straight sets, 6-4, 8-3.

Tomorrow Dodge will play either Carlson or Whitney and victory over either one will place him in the semifinals, which probably will be played Friday.

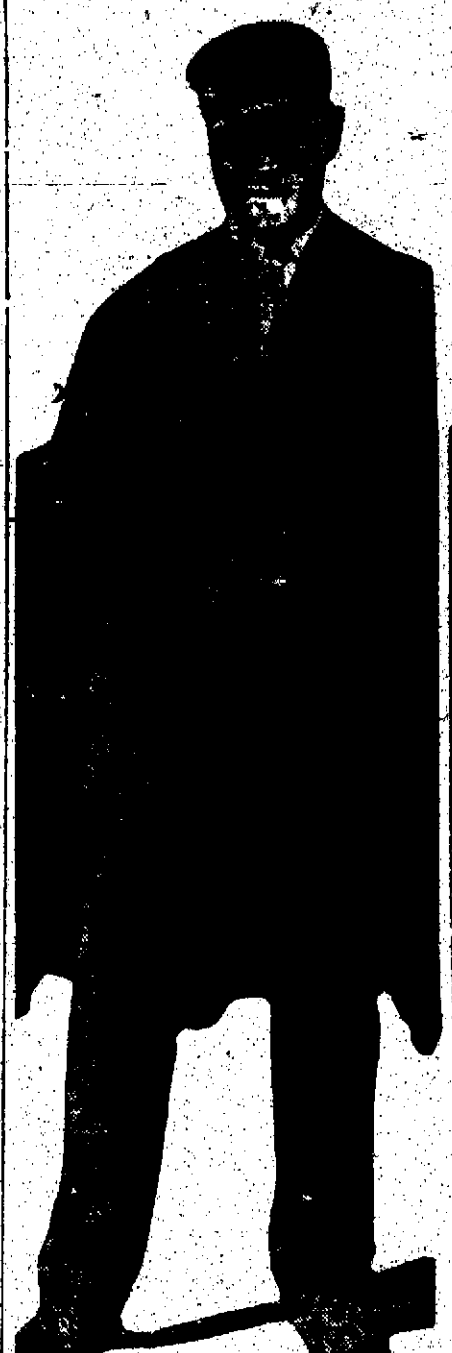

Former Tiger Football Player Shies Hat in Real Ring on Monday

Fred E. Copeland, a member of Colorado college football teams during his student days at Colorado college, where he graduated in 1911, will meet Eddie Egan, Colorado welterweight champion, at Victor next Monday night for the state title of this division. Copeland, while at college, gained a reputation as being one of the fastest and hardest-hitting boxers ever, and his punches were something to keep away from.

Copeland has been doing most of his training in Colorado Springs, doing his road work at Washburn field and his boxing work in this city. He will go to Victor Thursday to get used to the altitude, although he lives there.

Copeland and "Hung" Jardine, the former track star, used to put on sparring exhibitions at college smokers that were real milks.

O'DAY STARTS HOUSE CLEANING

HANK O'DAY
With the release of Tom Needham and Charlie Smith, the oldest battery in the league, Hank O'Day, manager of the Chicago Cubs, has started to clean house in preparation for the fall crop of youngsters. O'Day is preparing to rid himself of a great deal of old material which he will replace with young players, to be picked up this fall in the draft and by purchase.

A King Dethroned McLoughlin Loses Title Williams Wins From California Net Marvel

NEWPORT, R. I., Sept. 1.—Catching the champion in the doldrums and playing with sustained brilliancy, R. Norris Williams II of Philadelphia and Harvard, today snatched the chief lawn tennis honor of the country from Maurice E. McLoughlin of San Francisco, who had held it for two years.

Williams' victory was in straight sets, the scores being 6-3, 8-6, 10-8. Williams' own explanation after the match was the one generally accepted by all who saw the contest.

"Mac was off his game," he said.

McLoughlin was no further under his own game, however, than Williams was above the brand of tennis which he had previously displayed.

Williams is 27 years old. Until three years ago he was absolutely unknown on tennis courts. He acquired his game in Switzerland and when he appeared in the summer of 1912, after a miraculous escape from the sinking steamer Titanic, he proved the sensation of the season. He was a member of the 1913 Davis cup team and was victorious in one of his two matches. This year he fell before McLoughlin at Longwood and was defeated by both Wilding and Brooks in the Davis cup events.

He entered Harvard in the fall of 1912.

FOOD IS BECOMING SCARCE IN BRUSSELS

LONDON, September 1.—A Belgian business man who has just arrived in London said that food was already very scarce in Brussels.

"Only about one person in a hundred can afford eggs and milk," he said. "People who are rich enough to have milk twice weekly are considered very lucky. The Germans have directed the suburb of St. Gilles to supply to the military 400 bottles of wine daily. Brussels proper has to contribute daily 70,000 pounds of bread, while the suburb of Auderghem supplies 40,000 pounds of meat."

WILL THEY NEVER STOP; WHO? MACKS

Boston and Sox Making Hard
Fight to Approach First
Place

PHILADELPHIA, Sept. 1.—Philadelphia closed a successful home stand by winning today's game from Cleveland, 16 to 3, making the third sweep of a series with the Naps, with an extra game thrown in two weeks ago.

Score:

British Government Commandeers Three Big Wireless Plants

NEW YORK, Sept. 1.—The British government has commandeered the three high-powered wireless telegraph stations at Poldhu, Towing and Carnarvon, Wales, and has made an emergency war ruling that no merchant vessel may send wireless messages while within three miles of the English coast, according to information received here today by E. J. Nally, vice president and general manager of the Marconi Wireless Telegraph company of America. These stations, completed only a short time ago, were to be opened to the public tomorrow, the American stations in the circuit being at Belmar and New Brunswick, N. J.

Tale of a Tail Is 'Some' Tale

By FRANK G. MENKE

NEW YORK, Sept. 1.—Never in our life have we heard a tale that equals the tale concerning a tail that is related by E. E. O. in the September issue of the Outlook magazine.

It's a tale by a nimrod, but one doesn't have to know a darned thing about artillery or shipyard to understand it—not to become amazed by it.

"Upon proceeding to head the old gun, I discovered there was no small shot in the camp," declared E. E. O., so I took a rusty nail out of my pocket, dropped it down into the gun barrel, and head first, pushed home a real and went out hunting for partridges.

The scene shifts from the camp to the forest. No partridges are in sight, but, of a sudden, a fine young duck leaps into the clearing, just a few yards from where E. E. O., the hunter, is standing, with his gun over his shoulder.

Switching His Tail

"There he stood," relates E. E. O., "just a short distance from me, switching his tail. Instantly, I brought my gun to my shoulder, and then I remembered that my gun was loaded with only a rusty nail."

E. E. O. then goes on to say that while the duck continued to slap his tail against a tree, he (E. E. O.) was wrapped in thought. What should he do? It wouldn't do any good to pepper away at the duck, because with a nail for ammunition I could not more than wound the animal. To wound and not kill would not give me satisfaction.

Nailed to the Cross

"My nail had nailed the tail to the tree," E. E. O. says. "But the animal was as quick as ever, and struck out viciously at me with his sharp forward hoofs when I approached. I had no more ammunition and debated what to do. Finally I decided to return to camp and borrow a rifle from one of the other boys, if any of them had yet returned."
